* The **Students Passing** column shows the percentage of students that have a passing average in the subject. Students in the grade level listed who have taken at least 30 questions in the corresponding subject are counted.

** The **Program Completion** column shows how far along your students have gotten in the program. Only students that have started working on the subject and are in the grade level listed are counted in this statistic. Also, progress is calculated from the registered students' start date not August 1, 2005.

Login to <http://www.studyisland.com> for more detailed reports.

**The yearly stats are for the 2005-2006 school year, from August 1st, 2005 until now.
